

Please do not pass any regulations which favors large corporate interests at the cost of individual broadcaster possibilities. Clear Channel owns too much and controls media like music. Independent broadcasters must be encouraged to compete withg equal ground. The wasFCC started in the 30's with a mandate to keep the airwaves for the PUBLIC and not private stockholders. Large comapnies control local advertising and make it too expensive to buy local time and compete. Please do not change anything any further. The majority of stations are alreday owned by a few instead of many.
